

Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Thursday 25 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Often cloudy with showers in the north.

Today:
A largely cloudy day with showers, persistent and heavy at times in the north. Drier and brighter conditions further south of the region. Breezy with winds strengthening during the day. Maximum temperature 13 deg C (55 deg F).

Tonight:
A cloudy evening with further showers throughout the night. Turning very windy with a band of rain, wintry and heavy at times, pushing across the region by dawn. Minimum temperature 5 deg C (41 deg F).

Friday:
Rain will continue to move across the region during the morning, wintry and heavy at times. Sunshine and blustery showers will follow. A windy day and feeling colder. Maximum temperature 10 deg C (50 deg F).

Outlook for Saturday to Monday:
Showers will ease during Saturday morning then a largely dry day. Outbreaks of heavy rain on Sunday. Cloudy with further rain on Monday. Windy throughout with the risk of gales.
